Chairman Waxman and Subcommittee Chairman Kucinich have requested that Dr. Elias Zerhouni, Director of the National Institutes of Health (NIH), assure the Committee that NIH will postpone any plan to privatize Environmental Health Perspectives (EHP), a leading journal on environmental health, until the Committee concludes its inquiry into the matter. The first plan to privatize EHP was scrapped by NIH in January 2007 due to apparent conflicts of interest. **Documents and Links**

- Letter to Dr. Elias Zerhouni
