In order to guide effective congressional oversight during the 110th Congress, the Committee has developed an oversight plan.

This oversight plan consists of topics designated for investigation, evaluation, and review by the Committee on Oversight and Government Reform. The topics were selected by Chairman Henry A. Waxman, in consultation with the Ranking Minority Member, Rep. Tom Davis, other members of this Committee, and other Committees. In developing this oversight plan, the Committee reviewed oversight proposals by various entities, both inside and outside government.
