Dear Mr. Chairman:

We are writing again to request that the Committee investigate recent allegations of illegal actions by Rupert Murdoch's News Corporation, including in particular allegations that the company sought to hack the telephones of September 11th victims and other U.S. citizens.

This is the third letter that has been sent to you on this topic. The first letter was sent on July 13, 2011, by Congressman Bruce Braley, and the second letter was sent on July 28, 2011, by Congressman Braley and Congressman John Tierney. Both letters are attached for your review. It is unacceptable that you have not even replied to these previous requests. As you know, we have just observed the tenth anniversary of the September 11th attacks on our nation and these victims deserve to know whether they were targeted in this offensive and potentially illegal manner.¹

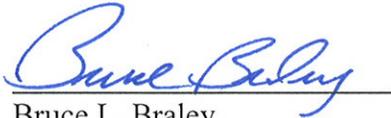

Since these previous requests were sent to you, the Justice Department reportedly has opened a preliminary criminal investigation into these allegations, including whether the actions of News Corporation officials may have violated the Foreign Corrupt Practices Act.² We do not want to interfere unduly with this ongoing investigation, but we request that the Committee at least take preliminary steps to determine how to proceed, such as meeting with the September 11th families, consulting with the Department of Justice, and pursuing other measures the Committee has utilized in many other investigations.

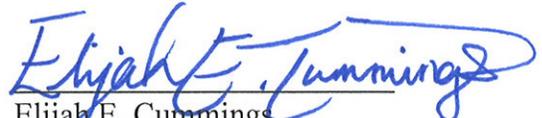

¹ See, e.g., *Phone Hacking: 9/11 Victims 'May Have Had Mobiles Tapped by News of the World Reporters'*, Daily Mirror (Nov. 7, 2011).

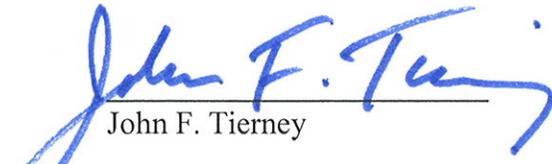

² NPR, *Justice Dept. to Probe if News Corp. Hacked Sept. 11 Families* (Aug. 24, 2011) (online at www.npr.org/blogs/thetwo-way/2011/08/24/139927904/justice-dept-to-probe-if-news-corp-hacked-9-11-families).

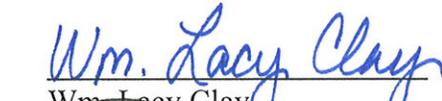

The Committee on Oversight and Government Reform has a responsibility to protect the interests of U.S. citizens against the illegal actions of corporations, regardless of their political leanings. We hope you will provide a response to this request as soon as possible, and we thank you for your consideration.

Sincerely,

Bruce L. Braley

Dear Chairman Issa:

We are following up on the previous letter sent to you on July 13, 2011. We strongly urge you to investigate Rupert Murdoch's News Corporation. The allegations that have been raised are serious and more answers are needed. You will find the modified text of the original letter below:

As you may know, serious allegations have recently been raised accusing Rupert Murdoch's News Corporation of acting improperly and possibly in violation of United States law.

It has been reported that News Corporation and its subsidiaries may have bribed London police officers for information for use in newspaper articles, including information about high-ranking government officials. If true, these charges could be a violation of the Foreign Corrupt Practices Act (FCPA), that forbids bribery of foreign government officials by U.S.-based companies.

Additionally, News Corporation has already admitted to phone hacking in London, and we have concerns about allegations that hacking may have also extended to U.S. citizens. We ask that you investigate whether victims of the September 11, 2001 attack and other U.S. citizens had their cell phones targeted by News Corporation.

Please look into the serious allegations that have been made against News Corporation. We owe it to the American public to find out if victims have been subject to criminal actions by News Corporation and its affiliates.

The Committee on Oversight and Government Reform has a duty to protect the privacy of Americans and to hold U.S. corporations accountable. We look forward to your response within ten business days regarding an investigation of News Corporation. Thank you for your consideration.

Sincerely,
