

"Weaponizing Space: Is Current U.S. Policy Protecting Our National Security?"

On May 23, 2007, the Subcommittee on National Security and Foreign Affairs held a hearing to explore the Administration's military and diplomatic policies toward the use of space and what impact these policies have had with respect to other countries' actions, and going forward, to examine the risks and benefits of current U.S. policy versus other alternatives.

WITNESS LIST:

Panel I

- Major General James B. Armor, Jr., Director, National Security Space Office, U.S. Department of Defense
- The Honorable Donald Mahley, Deputy Assistant Secretary for Threat Reduction, U.S. Department of State

Panel II

- Dr. Laura Grego, Staff Scientist, Global Security Program, Union of Concerned Scientists
- Ms. Theresa Hitchens, Director, Center for Defense Information
- Mr. Jeff Kueter, President, The George C. Marshall Institute
- Mr. David Cavossa, Executive Director, Satellite Industry Association
