

At the request of Rep. John F. Tierney, this report analyzes the impact these proposals would have on veterans in Massachusetts's 6th Congressional District. The report finds that the proposed changes would cause an estimated 28,000 Massachusetts veterans, including an estimated 3,350 veterans in Rep. Tierney's district, to be denied VA health care or to drop out of the VA system, while increasing costs for thousands more. **Documents and Links**
