

Congress of the United States

Washington, DC 20515

September 21, 2016

Melissa Tidwell, Esq.
General Counsel
Reddit, Inc.
548 Market Street #16093
San Francisco, CA 94104-5401

Dear Ms. Tidwell:

The Committee on Oversight and Government Reform and the Committee on Science, Space, and Technology are investigating the federal recordkeeping, national security, and cybersecurity implications of former Secretary Hillary Clinton's use of a private email server for official State Department business.

According to recent news reports, Reddit may be in possession of records which are relevant to the Committees' investigations.¹ In particular, these reports raise the possibility that Paul Combetta, an employee of Platte River Networks who provided IT services for Secretary Clinton, sought advice as to how to destroy or alter federal records that were subject to preservation orders and a congressional subpoena. Those reports further state Mr. Combetta allegedly posted under the Reddit username "stonetear" on the "subreddit" /r/ExchangeServer, and that his posts were deleted as recently as yesterday. As of today, /u/stonetear also shows the "stonetear" account on Reddit has been deleted.²

To ensure the integrity of the Committees' investigations, please preserve all documents that can reasonably be anticipated to be subject to a request for production from the committee(s). Specifically, preserve all communications, documents, and other data ("electronic records") referring or relating to the Reddit user "stonetear" or with the email accounts paulcombetta@gmail.com or stonetear@gmail.com. Electronic records should be construed broadly and includes log files of activity, posts, edits, and deletions; IP addresses that accessed the account; private messages sent or received; full threads of any posts in which he commented on or on which he was the original poster; and any other documents or data stored on the account. For the purposes of this request, "preserve" means taking reasonable steps to prevent the partial or full destruction, alteration, testing, deletion, shredding, incineration, wiping, relocation, migration, theft, or mutation of electronic records, as well as negligent or intentional handling that would make such records incomplete or inaccessible.

Further, the Committee requests that you:

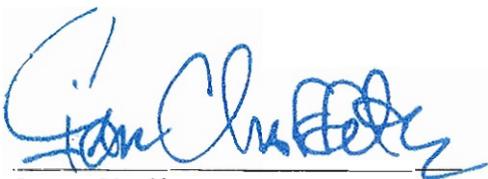

1. Exercise reasonable efforts to identify and notify former employees and contractors, subcontractors and consultants who may have access to such electronic records that they are to be preserved;
2. Exercise reasonable efforts to identify, recover, and preserve any electronic records which have been deleted or marked for deletion but are still recoverable; and
3. If it is the routine practice of any agency employee or contractor to destroy or otherwise alter such electronic records, either halt such practices or arrange for the preservation of complete and accurate duplicates or copies of such records, suitable for production, if requested.

The Committee on Oversight and Government Reform is the principal oversight committee of the House of Representatives and has broad authority to investigate “any matter” at “any time” under House Rule X. An attachment to this letter provides additional information about responding to the Committee’s request.

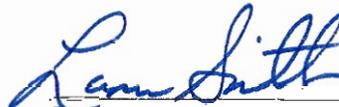

The Committee on Science, Space, and Technology has jurisdiction over the National Institute of Standards and Technology which develops cybersecurity standards and guidelines to support the implementation of and compliance with FISMA as set forth in House Rule X.

Please contact Liam McKenna of the Committee on Oversight and Government Reform staff at (202) 225-5074 and Drew Colliatie of the Committee on Science, Space, and Technology staff at (202) 225-6371 with any questions about this request. Thank you for your attention to this matter.

Sincerely,

Jason Chaffetz
Chairman
Committee on Oversight
and Government Reform

Responding to Committee Document Requests

1. In complying with this request, you are required to produce all responsive documents that are in your possession, custody, or control, whether held by you or your past or present agents, employees, and representatives acting on your behalf. You should also produce documents that you have a legal right to obtain, that you have a right to copy or to which you have access, as well as documents that you have placed in the temporary possession, custody, or control of any third party. Requested records, documents, data or information should not be destroyed, modified, removed, transferred or otherwise made inaccessible to the Committee.
2. In the event that any entity, organization or individual denoted in this request has been, or is also known by any other name than that herein denoted, the request shall be read also to include that alternative identification.
3. The Committee's preference is to receive documents in electronic form (i.e., CD, memory stick, or thumb drive) in lieu of paper productions.
4. Documents produced in electronic format should also be organized, identified, and indexed electronically.
5. Electronic document productions should be prepared according to the following standards:
 - (a) The production should consist of single page Tagged Image File ("TIF"), files accompanied by a Concordance-format load file, an Opticon reference file, and a file defining the fields and character lengths of the load file.
 - (b) Document numbers in the load file should match document Bates numbers and TIF file names.
 - (c) If the production is completed through a series of multiple partial productions, field names and file order in all load files should match.
 - (d) All electronic documents produced to the Committee should include the following fields of metadata specific to each document:

BEGDOC, ENDDOC, TEXT, BEGATTACH, ENDATTACH,
PAGECOUNT, CUSTODIAN, RECORDTYPE, DATE, TIME, SENTDATE,
SENTTIME, BEGINDATE, BEGINTIME, ENDDATE, ENDTIME, AUTHOR, FROM,
CC, TO, BCC, SUBJECT, TITLE, FILENAME, FILEEXT, FILESIZE,
DATECREATED, TIMECREATED, DATELASTMOD, TIMELASTMOD,
INTMSGID, INTMSGHEADER, NATIVELINK, INTFILPATH, EXCEPTION,
BEGATTACH.
6. Documents produced to the Committee should include an index describing the contents of the production. To the extent more than one CD, hard drive, memory stick, thumb drive, box or folder is produced, each CD, hard drive, memory stick, thumb drive, box or folder should contain an index describing its contents.

7. Documents produced in response to this request shall be produced together with copies of file labels, dividers or identifying markers with which they were associated when the request was served.
8. When you produce documents, you should identify the paragraph in the Committee's schedule to which the documents respond.
9. It shall not be a basis for refusal to produce documents that any other person or entity also possesses non-identical or identical copies of the same documents.
10. If any of the requested information is only reasonably available in machine-readable form (such as on a computer server, hard drive, or computer backup tape), you should consult with the Committee staff to determine the appropriate format in which to produce the information.
11. If compliance with the request cannot be made in full by the specified return date, compliance shall be made to the extent possible by that date. An explanation of why full compliance is not possible shall be provided along with any partial production.
12. In the event that a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document: (a) the privilege asserted; (b) the type of document; (c) the general subject matter; (d) the date, author and addressee; and (e) the relationship of the author and addressee to each other.
13. If any document responsive to this request was, but no longer is, in your possession, custody, or control, identify the document (stating its date, author, subject and recipients) and explain the circumstances under which the document ceased to be in your possession, custody, or control.
14. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, you are required to produce all documents which would be responsive as if the date or other descriptive detail were correct.
15. Unless otherwise specified, the time period covered by this request is from January 1, 2009 to the present.
16. This request is continuing in nature and applies to any newly-discovered information. Any record, document, compilation of data or information, not produced because it has not been located or discovered by the return date, shall be produced immediately upon subsequent location or discovery.
17. All documents shall be Bates-stamped sequentially and produced sequentially.
18. Two sets of documents shall be delivered, one set to the Majority Staff and one set to the Minority Staff. When documents are produced to the Committee, production sets shall be delivered to the Majority Staff in Room 2157 of the Rayburn House Office Building and the Minority Staff in Room 2471 of the Rayburn House Office Building.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
